Our patterns and habits of thinking affect every aspect of our lives, from relationships and accomplishments to peace and purpose, to daily routines and turning points in world affairs.

**Whether you call it new thinking, a different mindset, or an evolutionary leap in consciousness - the fact is it's time for all of us to think in a new way.**

### ***WHY QUANTUMTHINK?***

The world is changing at a dizzying pace.

In today's rapidly changing, uncertain world with a sea of information coming from every direction—it is more important than ever to gain mastery with our ability to be clear and focused, to discern what is best and right for ourselves.

We're all looking for new ways of thinking that can have us bring about real solutions to modern problems -  
from peace of mind to business results to global issues.

**Until now the idea *thought creates reality* has been given little attention in mainstream society, sometimes dismissed as wishful thinking and little to do with concrete reality.**

The missing link: knowing how to use the dynamic laws of mind.

It's time to learn how the "physics of mind" actually works to create our results.

**Since the dawn of human civilization sages and spiritual masters have taught, *as you think, so you become.***

But it is only now that the real scientific evidence for this has emerged. The implications of this growing awareness help form the foundation of the QuantumThink message. Though science may infer, the undeniable real evidence is your own experience.

QuantumThink® is an actual methodology for excellence in living in our modern times, revealed to you in your direct personal experience.

## **THE DILEMMA**

**We're in a Quantum Age using Industrial Age thinking.  
It's not working.**

Our current thinking system was created in another era when our 24/7 way of life didn't exist.

We're in a Quantum Age still using thinking shaped by the Industrial Age, so it's no wonder we're feeling limited by it.

*"Einstein's edict, 'the problems we have cannot be solved at the same level of thinking that created them,' has become a modern-day mantra - not just because*

*it makes sense; it has never been more relevant.”*

- Do You QuantumThink? New Thinking That Will Rock Your World

## **KEY INSIGHTS**

- “Quantum” has become the modern buzzword, and for good reason. We are in a quantum age with new knowledge, especially about the relationship of mind and thinking to our results.
- People are experiencing stress and even burnout, confusion and questions about meaning and purpose. Why? The pace of change is accelerating, there is an increasing number of choices and complexity, and because our world is rapidly transforming, there is daily uncertainty.
- Our societal institutions - educational, medical, judicial, political, media - all of them have been shaped by Industrial Age thinking. That’s why many aspects of these institutions need to be re-structured for greater effectiveness. New times require new thinking.
- QuantumThink provides specific principles we can learn and use that instantly give us a new perspective on life.
- Most of us haven’t yet realized that we think in a “system” based on beliefs and assumptions that are put forth by the scientists of our age - the worldview.
- We’re in a Quantum Age trying to use Industrial Age thinking even though it’s no longer effective.  
It’s time to upgrade our thinking in sync with the times and knowledge at the edge of discovery.

How does it happen?

Take a quantum leap in the way you think.

- QuantumThink is not just a philosophy or a good idea - this is practical wisdom you put to use immediately.

**“I want a new point of view.”**

New thinking is not a series of clever or creative ideas; it’s a new framework, a different perspective.

**If thinking is so important to every aspect of life, wouldn't it be a great idea to get really good at thinking?**

# QUANTUMTHINK<sup>®</sup> DISTINCTIONS

**A QUICK OVERVIEW**

**THE 10 AUDIOS IN THE QUANTUMTHINK AUDIOCOACH**

## INTRODUCTION TO QUANTUMTHINK

*In this Introduction to the QuantumThink<sup>®</sup> system of thinking, you will learn the distinction between “old world view” thinking conditioned by the Industrial Age of times past, and “new world view” thinking that QuantumThink teaches, so we think in sync with the wisdom of the time.*

## DISTINCTION #1: HOLISTIC & HOLOGRAPHIC

We know as a “concept” that the principle of unity and wholeness is a universal principle operating throughout nature and within you and me, and that everything and all of life is interconnected and interrelated. Yet, how do we live these principles in everyday activities, to create soundness and integrity in our way of life? Listen and it becomes natural.

## **DISTINCTION #2: OBSERVER-CREATED REALITY**

One of the most important principles of our quantum age is the discovery of “the observer effect.” In essence what it means is you and I are shaping our reality and our experience of life, according to what we bring to our “observations”—what we hold in our awareness and the meanings we bring to every situation. The great news is when we become aware of this distinction “Observer-created Reality” and learn how the dynamic of creation—the power of Intent - works, we break free from predictable outcomes and can masterfully create what we truly desire.

## **DISTINCTION #3: INFINITE POSSIBILITY**

In every moment there are infinite ways that reality can manifest, and there are infinite ways that we can think about and create our approaches to what is important to us in our daily lives. Yet, due to our “old world view” limited thinking habits, there are Least-action Pathways that kick in, interfering with our ability to think from Infinite Possibility. In this distinction you learn to easily catch the limits of your thinking in the moment, and create from the boundless infinity of possibilities.

## **DISTINCTION #4: SUCCESS TO MASTERY**

We have all experienced many successes in our lives, however, we may not always be aware that even our successes, which by definition are past-based, can limit us going forward. In our dramatically changing, fast-paced world it is time for us to start living from the state of Mastery. This is a state where we are acting freshly, spontaneously alert and aware in the moment, knowing the appropriate action and taking it, without having to think about it. This is the state from which all great accomplishment derives.

## **DISTINCTION #5: ALLOWING**

Intent is the active dynamic of creation that we have been endowed with, and Allowing is the passive dynamic. When you realize that in a given moment we can only see or be aware of 10 percent of the total picture, it becomes essential to learn to exercise the faculty of Allowing so we can recognize all the different results and opportunities that present themselves, consistent with our Intent.

## **DISTINCTION #6: BEING IN ONE CONVERSATION**

When you think from a Holistic & Holographic mindset you realize that a conversation is not made up of “parts” but is a whole field, a relational field of various voices engaging in One Conversation. In this distinction you condition yourself to “listen with your whole being” - and you quite naturally create a higher quality of connection in all your relationships.

## **DISTINCTION #7 TRANSFORMATION AS DISTINCT FROM CHANGE**

People say they want “change” in their life without realizing that in order to change something, it has to be “present.” Thus, you tend to keep in existence the very thing or condition you want to release. By distinguishing Transformation as Distinct from Change you develop the practice of placing your focus and attention on creating what you want, creating clarity in the resonant field for attracting what you desire.

## **DISTINCTION #8 4 ASPECTS OF KNOWING**

The old world view has silently “trained” us to relate to our goals and desires as “separate” from us, yet we create most powerfully and with ease when our desired result is experienced as an aspect of our own being. This extremely

useful distinction enables us to quickly discern how we are related to our goal - in Unawareness, Conceptually, Intuitively, or in Participatory Knowing. When we are aware this way, we can shift and manifest with ease.

## **DISTINCTION #9      PERSPECTIVE OF ALL PERSPECTIVES**

The highest state of awareness is being established in the Perspective of All Perspectives - free of automatic conditioning and reaction to views that we either don't agree with or resonate with. This is the state of non-attachment. When we are attached we tend to jam the energy field and create "interference" in the connectivity between creative Intelligence and ourselves. Great leaders are charismatic because without getting swept up in Least-action Pathways, they are able to be with any perspective while remaining engaged in their own committed path.

## **DISTINCTION #10 BEING CENTERED**

When you have Being Centered as a distinction you are able to function in the Both/And world of being fully engaged and participating in all the different roles you play in life, and at the same time remaining in the state of Awareness as the "watcher." Being Centered in present-moment awareness is the state in which the natural forces of creation, our faculties of mind are most powerfully effective.

## WHAT PEOPLE ARE SAYING

“QuantumThink® is the most powerful program that I have experienced in my 20 years working Corporate America. This new way of thinking enables you to create results that were unimaginable, beginning with intent and thoughts and working through words and actions. It is an ongoing, continuous learning, and evolving part of my life now.”

- Kathy Bloom, Human Resource Professional, Accenture

“I doubled my income in the first year of QuantumThinking. I diversified my thinking and in turn I diversified my business. I was invited to be a member of an investment group of venture capital angels and had my dream of being a racehorse owner come true. I became a major shareholder in one of the best racehorses in the country. It was all about being consciously aware moment by moment. Being so present and clear allowed me to create what I wanted. QuantumThink got me to think in systems rather than seeing life and people and projects as separate and distinct. This changed everything for me.”

- Chris Pallas, Hospital Pharmacist and Thoroughbred Racing Owner-Breeder

“I am in awe of your creation and very much want to acknowledge the ease and simplicity of the program.”

- Roma Gaster, Leadership Consultant

---

**This level of mastery in living and understanding opens the possibility of solving the pressing issues in our world today as we have never done before, as well as giving us a true sense of command in our business, professional and personal worlds.**

---

"I have found a new felt freedom and ease in making decisions. QuantumThink has allowed me to get back in touch with my power of intent and purpose. Whole new vistas are now available and open to me that I couldn't see before the course."

- Harold Solomon, Former 5th Ranked ATP Tennis Player in the World

"Thank you Dianne and Alan! Chalk this up as one of your success stories. QuantumThink® principles helped me get to the point in my life where I knew I wanted to write poetry and in less than two years I am ranked the #5 poet on an international writing site of 3000 poets (many published) and have become a published writer myself. See what you have the ability to inspire in us!"

- Sue Campion, Poet and Educator

"QuantumThink is quite possibly one of the most influential programs I have ever experienced. The combination of the distinctions and recreations is profound and the emphasis on intent has helped me create exactly the personal and professional life that I have wanted for myself and my family. "This program helped me leave a failing partnership, brought me together with investors and moved my vision forward through their passion for what I was doing. The most amazing part was, through the QuantumThink distinctions, I was able to build a scenario that met every single intent I had previously written down from an income level to time freedom and a new position doing exactly what I love to do."

- Jake Velie, CEO and Clinical Advisory Board Chairman, Natural Integrative Health
