## **TO MAKE IT EASY FOR YOU TO ENGAGE, WE OFFER TIPS ON HOW TO USE THE SITE**

**1- The audios are what we call the QuantumThink “distinctions.”**

You must be logged in to listen and to view any of the content in the Members' Area.

**2- You can access the QT distinction audios in 3 ways -** from the

numbers across the blue header; by hovering over the word “Distinctions” in the header for a drop down menu; and by clicking on the beautiful images at the top of the home page.

**3- When you click on a distinction, the center page becomes the page for that specific distinction.**

**On each distinction page you will find:**

**Audio** of the Distinction

**Written “Essence”** of the Distinction, including

**Recreation Practice** for the mind and awareness

**Coaching Worksheet** to personalize and apply that distinction in your life

**Conversational Audio** for additional insight on the distinction, best listened to *after* you practice the Recreation.

**4- All the links in the Members’ Area** are for you to enhance your QuantumThink mastery.

**Articles link** is important because it coaches you in creating powerful statements of Intent, and distinguishes the difference between Intent and Intention.

**Extras link** is for you to go to another octave of awareness with money, with purpose, and with the 5 natural faculties of mind.

**New World View link** shows you the vast difference between the realities of “old world view” thinking and “new world view” thinking.

**5- A Note regarding the Mobile and Tablet versions of the site:** scroll down past the menus to get to the page link you clicked on.

For example, if you click on Login - you will first see the sidebar menus, and when you scroll further down below the menus, you will see the place to login.

**6- The Guests’ Area offers videos you will find entertaining and enlightening.** It’s a great place to introduce your friends and colleagues to the QuantumThink Experience.

**7- The link to Share Quantum Occurrences is visible only to Members of this site.** Everyone loves to hear all the ways QuantumThinking is enhancing people’s lives!

*Have fun with this!*
